

# ABC of Prehospital Emergency Medicine

## Table of Contents

- 1) Prehospital Emergency Medicine
- 2) Activation and Deployment
- 3) Personal Protective Equipment
- 4) Scene Safety and Assessment
- 5) The Primary Survey
- 6) Airway Assessment and Management
- 7) Breathing Assessment and Management
- 8) Circulation Assessment and Management
- 9) Prehospital Anaesthesia
- 10) Prehospital Analgesia and Sedation
- 11) Prehospital Monitoring
- 12) Prehospital Ultrasound
- 13) Trauma: Head Injury
- 14) Trauma: Spinal Injuries
- 15) Trauma: Abdominal Injury
- 16) Trauma: Pelvic Injury
- 17) Trauma: Extremity Injury
- 18) Trauma: Burns
- 19) Trauma: Suspension and Crush
- 20) Trauma: Ballistic and Blast
- 21) Trauma: Extrication of the Trapped Patient
- 22) Cardiac Arrest
- 23) Acute Medical Emergencies
- 24) Environmental Injuries
- 25) Environmental: Altitude Injury
- 26) Environmental: Drowning and Near Drowning
- 27) Environmental: Diving Emergencies
- 28) Care of Special Groups: The Obstetric Patient
- 29) Care of Special Groups: The Paediatric Patient
- 30) Care of Special Groups: The Elderly Patient
- 31) Care of Special Groups: The Bariatric Patient
- 32) Retrieval and Transport
- 33) Emergency Preparedness: Major Incident Management
- 34) Emergency Preparedness: Chemical, Biological, Radiation and Nuclear Incidents
- 35) Emergency Preparedness: Mass Gatherings
- 36) Clinical Governance
- 37) Medicolegal and Ethical Aspects of Prehospital Emergency Medicine
- 38) Research and Development in Prehospital Emergency Medicine
